

Waste Not, Want **Growth**

Merger and Acquisition Trends in Victoria's Waste Sector

In this seminar, we will discuss the unique industry and sector drivers of mergers, business sales and acquisitions, corporate governance issues, financing strategies, and the impact of recent regulatory changes under the Circular Economy Act and Environment Protection Act in Victoria as critical success factors.

Attendees

Participants will gain insights into the key drivers shaping mergers, acquisitions, and business transitions in the waste and resource recovery sector—particularly in response to regulatory change, financial pressures, and industry consolidation. The session will unpack practical strategies around corporate governance, financing, and succession planning, with a focus on recent legal changes under the Circular Economy Act and the Environment Protection Act in Victoria. Attendees will also have the opportunity to network and connect over refreshments at Russell Kennedy's offices.

PRESENTERS

Welcome: Mark Smith (VWMA)

Host: Kyle Gillan (Principal, Russell Kennedy)
